

# Product Specification Sheet

## 12464 — .335 Kerf PS

*This product is being offered as a potential replacement to  
Rochester's Urethane C03 / U03 QEZD-375*

**Product Description:** .335" kerf mount foam profile designed to fit a kerf slot with a width of .078" and minimum depth of .250".

**Features:** Seamless compression seals are nearly 100% closed cell to prevent water from penetrating foam cell structure. Extruded skin provides a unique UV resistant barrier with design features that enhance the weather strip's sealing performance.

This product features our Pro-Slip II HDPE coating which provides excellent durability and co-efficient of friction properties making it a great choice for sliding applications

**Compression:**

Recommended = 25% Minimum = 10% Maximum = 50%

**Achieves AAMA 702 Class "A" Extra High Performance Certification**
